

Good Morning! Attached you will find a **Crossover list** to help you with referencing your color selections. Also, we have attached three Tahoe fabric cards.

The first two cards we are attaching are the Marathon and Olympia cards. These are great fabrics if you are looking for **durability, affordability,** and a **huge variety of colors!**

The other card that we are attaching is the pattern Illusion. This is one of our personal favorites. We love its diversity! Illusion can be used in a variety of markets and its modern design can work with almost any décor. The price can't be beat at \$5.95 per yard!
